

IS CHRISTIANITY WISH FULFILMENT?

A PUBLIC TALK
BY DR. MAX BAKER-HYTCH
WITH Q&A

WHEN

Fri 16th November
7:00 - 9:00 p.m.

WHERE

Hofbräukeller München
Innere Wiener Straße 19, 81667 Munich

According to a longstanding and influential line of thought advanced by such thinkers as Sigmund Freud and Ludwig Feuerbach, Christian belief is the product of *wish fulfilment*, a desire to have a cosmic father figure who fits our human needs and expectations. In this talk we'll be exploring this important objection, as well as considering ways in which the core claims of Christianity would have been unexpected in the historical context in which they were first made.
